### Stay Safe: Carry Ten Essentials

1. Extra food/water

2. Extra clothing

3. Map

4. Compass

5. Knife

6. Matches

7. Fire starter

8. First aid kit

9. Sunglasses

10. Flashlight

### Protect Yourself From Hypothermia

Hypothermia is caused by the lowering of body temperature. Even the loss of a few degrees can be incapacitating and should be guarded against whenever you are outdoors.

*Protect yourself by remembering a few basic tips:*

- Maintain your energy supply by eating high-calorie foods frequently during your trip. Exercise will then maintain heat production. Avoid becoming overly fatigued.
- Wear appropriate layered clothing. Wool is the best protection if you become wet. Certain new synthetics also are good protection. Avoid wearing cotton next to your skin. When it is wet, it draws heat from your body. Down is good in dry conditions but becomes ineffective when wet.
- Seek shelter from wind and rain if you are lost. Try to stay dry and warm. Set up your tent or dig a snow cave. Build a fire if dry wood is available. Take care to stay dry. Put on any extra clothing.
- Carry food, clothing, some sort of shelter and matches. Extra dry clothing may save your life.

### Signs Along the Trail

**TRAILHEAD MARKERS**  
(brown with white symbol)

**SNOWMOBILE TRAILBLAZER**  
(orange)

**CROSS-COUNTRY SKI TRAILBLAZER**  
(blue)

**STOP**  
(red with white letters)

**STOP AHEAD**  
(yellow with black letters)

**CAUTION**  
(yellow with black letters)

**DIRECTIONAL MARKER**  
(orange with black symbol)

**RIGHT INTERSECTION**  
(yellow with black symbol)

**LEFT INTERSECTION**  
(yellow with black symbol)

**"T" INTERSECTION**  
(yellow with black symbol)

**CROSSROAD**  
(yellow with black symbol)

**DESIGNATED SNO-PARK**  
(brown with white letters)

**WILDERNESS**  
(orange with black letters)

### Sharing The Trail With Dog Teams

**Please** yield the trail to a dog team.

- It can be difficult to stop a large dog team quickly.
- Be aware that a dog team may not be able to stop on some steep trails. They can slow down but not stop.

**Dogs are NOT allowed on GROOMED Cross-Country Ski Trails**

**Dog Teams:**

- Pick up and remove dog waste within the parking areas. Leave no trace: Pack it in, Pack it out.
- Dogs must be kept on a leash or tug within a one-mile radius of the parking area.
- Dog sled drivers must look for signs of other users and be ready to control their team.
- If in doubt about the trail conditions, remove some tugs and use a drag brake.
- Try not to stop your team when there is low sight distance, i.e. blind curves, at the base of steep hills, etc.
- When overtaking a slower team, ask the driver about passing and control your team. Be very careful when completing a head-on pass.

**Cross-country Skiers, Snowshoers with Dog(S), Skijorers on dog-approved trails:**

- Dog(s) must be kept on a leash. A loose dog getting into a dog team can lead to injuries.
- Pick up and remove dog waste. Leave no trace: Pack it in, Pack it out.
- Skijorers must follow the same rules as dog teams.
- When being overtaken, move as far off the trail as practical and control your dog while the other team passes.
- When meeting an oncoming team, move off the trail and control your dog.

**Snowmobilers:**

- When overtaking a dog team, pass very slowly. Give the dog team as much room as possible.
- Some dog teams will be nervous of the machine and move away from you.
- When approaching from the front, *Slow Down* and stop if requested.
- Your *Speed* is the primary action that affects how the dogs will react to your machine. Keep it *Slow* around the dogs.
- With large teams on a narrow winding trail, you may not see the sled driver until you are into the dogs.

**Washington State Parks Snowmobile**

**Trail conditions and informational only.**  
This publication is based on weather, snow conditions and other factors.

**Sources**  
Alaska Mountain Safety Center, USDA, US Forest Service Pacific Northwest Region

**Time Is Key**  
After a half hour, the buried victim has only a 50 percent chance of survival.

**You are the Victim's Best Hope for Survival**  
Do not desert the victim by going for help unless help is only a few minutes away. Remember, you must consider the time required for you to get help and to return. Treat for suffocation, shock, injuries and hypothermia.

**If You See Someone Caught in an Avalanche**  
Assess danger; safety of survivors comes first. Search for the location where you last saw the victim. Search directly down slope. Organize: appoint a leader and avalanche lookout. Identify escape routes. If victim is not on the surface, scuff or probe the snow with a pole or use avalanche transceivers if the victim is wearing one.

**Tools for Avalanche Rescue**  
Have the tools, know how to use them and have a plan.

**Be Prepared**  
Brain, beacon, probe and shovel

**General Guidelines**  
The more you participate in winter activities, the greater your risk of being caught in an avalanche.

- Frequency: The more you participate in winter activities, the greater your risk of being caught in an avalanche.
- Awareness can help you and others avoid becoming an avalanche victim. Determine whether terrain, weather, snow pack and human factors produce a "go" or "no-go" situation.
- Play it safe. Before you go, check the mountain weather and avalanche forecasts for the area in which you plan to travel. National Oceanic and Atmospheric Administration (NOAA) weather radio, avalanche hotline, avalanche web sites and local news are sources, as well as local agency offices and ski area patrol.

**Northwest Weather and Avalanche Center hotline:**  
(206) 526-6677 and www.nwac.us

**Stay Alert**  
For clues to instability, even while driving to the trailhead. Ride your sled onto small cutbanks to test snow stability. Periodically, STOP your machine, remove your helmet, walk around to get a feel for the snow and scan the area. If the snow is unstable, you should notice one or more of the following clues:

- Klatter (weakens snow quickly, will stabilize when refrozen)
- Whumphing noises (indicate the collapse of a buried weak layer)
- Recent avalanches (don't play on similar, unrelaxed slopes)
- New snow or wind-loading (may be your only clue)
- Shooting cracks (indicate snow is ripe for fracturing)
- Hollow-sounding snow (indicates a buried weak layer)
- Signs of rapid or intense warming (snow will weaken quickly)

## FAQS

### What is the Washington State Parks Sno-Park Program?

The Sno-Park Program was developed to provide cleared parking areas for winter recreationists. Presently, there are more than 80 Sno-Parks designated for snowmobiling. Sno-Park plowing is secondary to highway plowing; some Sno-Parks may not be cleared completely during the winter. Do not park on highway interchanges. Always be prepared—carry chains and a shovel as Sno-Parks are not graveled or sanded.

### How is the money distributed?

Annually, project sponsors submit an application to the State Parks Snowmobile Program requesting funds for trail grooming, parking lot snow removal, parking lot construction and law enforcement. The Snowmobile Advisory Committee reviews the applications and makes recommendations to the Washington State Parks and Recreation Commission. Once the Commission approves the recommendations, State Parks contracts with government agencies, private contractors and clubs to provide the services.

### The Snowmobile Advisory Committee consists of

- Six snowmobilers
- Three non-motorized winter enthusiasts
- One representative from each of the following: Washington Department of Natural Resources Washington Department of Fish and Wildlife Washington Association of Counties Washington Department of Licensing\* Washington State Parks and Recreation Commission\*

\*non-voting member

### Where do I register my snowmobile?

At the same location you register your vehicle—any county auditor office or sub-agency. Place registration sticker on the left side of the hood cowl below the windshield.

### Where can I get snowmobile trail maps?

Maps are available at the trailheads, by calling the agency listed (inside the brochure) for the area where you snowmobile or online at [www.parks.wa.gov/winter](http://www.parks.wa.gov/winter).

### Will I see wildlife in Sno-Park areas?

An exciting experience during a winter outing is seeing wildlife. Human activity frequently causes big game animals to run away, using needed energy reserves. So, please view animals from a distance.

### May I use my Sno-Park permit or registration in Oregon and Idaho?

The Washington Sno-Park permit is accepted in Oregon and Idaho. The Washington snowmobile registration is valid in Oregon; however, Idaho requires a non-resident certificate.

### Non-motorized Special Groomed Trails Permit

Snowmobile users must purchase a Special Groomed Trails Permit (\$30\*) when engaging in non-snowmobile activity at specially groomed Sno-Parks. These Sno-Parks include Cabin Creek, Crystal Springs, Hyak, Lake Easton, Chiwawa, Lake Wenatchee, Nason Ridge and Mount Spokane. A One-day Permit does not require the Special Groomed Trails sticker. For vendor locations, visit [www.parks.wa.gov/winter](http://www.parks.wa.gov/winter).

\*Washington's recreating public requires more services on a consistent basis. At its August 2007 meeting, the Washington State Parks and Recreation Commission approved the first Sno-Park permit fee increase in 16 years at the request of the State Parks volunteer citizen Winter Recreation Advisory Committee. Supported by individual users and recreational clubs, the fee increase will sustain the historical service level and provide sufficient financial reserves for improvements.

### The Wilderness—a special place

Federal law prohibits snowmobiles in Wilderness Areas. Respecting Wilderness boundaries helps everyone. Take responsibility now to ensure continued support of snowmobile programs and opportunities rather than risk potential closures and create a need for stronger enforcement.

### What is the cost of a permit?

A Sno-Park permit is issued with each snowmobile registration. Registration is \$30 per sled; \$12 per vintage sled. The permit must be completed and displayed in the lower left corner (driver's side) of the windshield of the towing vehicle. All vehicles licensed in Washington state must have a Washington Sno-Park permit.

### How Revenue is Spent

| Category                                    | Percentage |
|---|------------|
| Trail grooming and trail grooming equipment | 70%        |
| Administration*                             | 13%        |
| Snow Removal and sanitation                 | 12%        |
| Education and enforcement                   | 3%         |
| Emergency reserve                           | 2%         |
| Facility development and services           | 0%         |

\*Includes: salaries, overhead costs, signs, printing, travel, vehicle maintenance, supplies, etc

### Washington State Parks Winter Recreation Code of Ethics

- I will respect all public and private property and the rights of all winter recreationists to enjoy the beauty.
- I will park considerately without blocking other vehicles or impeding access to trails.
- I will keep to the right when meeting other winter recreationists and yield the right-of-way to downhill traffic.
- I will slow down and use caution when approaching or overtaking another.
- I will respect designated areas, trail-use signs and established ski tracks.
- When stopping, I will not block the trail.
- I will not disturb wildlife and will avoid areas posted for their protection or feeding.
- I will not litter and I will pack out everything I packed in.
- I realize that my destination and travel speed are determined by my equipment, ability, terrain, weather and traffic on the trail. In case of an emergency, I will volunteer assistance.
- I will not interfere with or harass others, recognizing that people judge all skiers or snowmobilers by my actions.

## Mt. Baker/Methow Area

*Mt. Baker Ranger District*  
(360) 856-5700 ext. 515

- 1. Canyon Creek (1,020 ft)**  
2 mi east of Glacier off Hwy 542, north on USFS Road 31  
Roadside parking  
Trails 55 mi (9) (542)
- Glacier Creek (1,150 ft)**  
1 mi east of Glacier off Hwy 542, south on USFS Road 39  
Roadside parking  
Trails 20 mi (9) (542)
- 2. Anderson Creek/Watson (1,000 ft)**  
2 mi east of Baker Lake Hwy & Junction 1106 past dam  
20 spaces  
Trails 14 mi (20)
- Mt. Baker National Recreation Area (1,160 & 1,520 ft)**  
12 mi north of Hwy 20 via Baker Lake Hwy, west on USFS Road 12  
75 spaces (2 Sno-Parks)  
Trails 19 mi (20)
- 3. Finney Creek (770 ft)**  
From Concrete on Hwy 20, southeast on Concrete-Sauk Valley Road to USFS Road 17  
30 spaces  
Trails 63 mi (20)
- Segelsen Creek (1,600 ft)**  
East of Darrington. Hwy 530 to County Road north at White Horse Store. Follow USFS Road 18 to parking area.  
30 spaces  
Trails 63 mi (9) (530)

## Methow Valley Ranger District

(509) 996-4003  
*Okanogan County*  
(509) 422-7300 (grooming)

- 4. Twisp River (2,350 ft)**  
10 mi west of Twisp. Twisp River/County Road 9114 to Co. Rd 1399/Buttermilk Creek Road south to USFS Road 4420 west  
25 spaces  
Trails 58 mi (20)
- Eightmile (2,100 ft)**  
6 mi north of Winthrop. County Road 1213 north to Co Rd 9137 north for 2.5 mi. Sno-Park is at USFS Road 51.  
50 spaces  
Trails 100 mi (20)
- Boulder Creek (2,050 ft)**  
6 mi north of Winthrop. County Road 9137 north to USFS Road 37; turn right and go 1 mi to Sno-Park  
30 spaces  
Trails 128 mi (20)
- Goat Creek (2,200 ft)**  
16 mi northwest of Winthrop. Highway 20 to County Road 1463/Goat Creek Road northwest for 3 mi to USFS Road 52 for .25 mi  
65 spaces  
Trails 100 mi (20)
- Yellowjacket (2,400 ft)**  
6.9 mi west of Mazama. Lost River Road/County Road 9140 west to USFS Road 54 for 1.8 mi  
50 spaces  
Trails 100 mi (20)

## Okanogan County

(509) 422-7300/422-7324 (recording)

- 5. Kerr (3,050 ft)**  
4 mi north of Conconully. County Road 2361 north to USFS Road 38  
25 spaces  
Trails 128 mi (20) (97)
- Peacock Meadows (2,550 ft)**  
3 mi south of Conconully via County Road 2017, then 1 mi south on USFS Road 42  
50 spaces  
Trails 128 mi (20) (97)
- North Summit (4,040 ft)**  
12.5 mi east of Twisp. Hwy 20 east to USFS Road 42 north for .5 mi  
50 spaces  
Trails 34 mi (20)
- Crawfish (4,500 ft)**  
18.5 mi east of Riverside. County Road 9320/Tunk Creek Road to USFS Road 30 for 1.5 mi  
15 spaces  
Trails 33 mi (97)

## Okanogan National Forest

(509) 826-3275

- 6. Bonaparte (3,560 ft)**  
20 mi east of Tonasket. Hwy 20 east to Bonaparte Lake Road /County Road 4953 for 6 mi  
25 spaces  
Trails 52 mi (20)

## Leavenworth/Chelan Area

*Wenatchee River Ranger District*  
(509) 763-3103

- 7. Fish Lake (2,000 ft)**  
16 mi west of Leavenworth. Hwy 2 to Hwy 207 north for 4.4 mi. Right at Chiwawa Loop Road for 1.2 mi to Chiwawa River Road/USFS Road 62. Left .2 mi to parking area  
100 spaces  
Trails 186 mi (2) (207)
- Lake Wenatchee Airstrip (1,920 ft)**  
16 mi west of Leavenworth. Hwy 2 to Hwy 207 north for 5 mi  
80 spaces  
Trails 186 mi (2) (207)
- Chelan Ranger District**  
(509) 682-2576
- 8. Antilon Lake (2,200 ft)**  
Hwy 150/Manson Hwy to Mill Bay Casino sign. Turn right onto Wapato Lake Road for about 2 mi, then turn right onto Upper Joe Creek Road to Grade Creek Road. Go straight to the end of plowed road.  
75 spaces  
Trails 100 mi (97) (150)
- Echo Valley (2,640 ft)**  
About 10 mi from Chelan adjacent to Echo Valley Ski Hill. Hwy 150/Manson Hwy for 2 mi to Boyd Road. Turn left and follow signs to parking area.  
50 spaces  
Trails 100 mi (97) (150)
- Black Canyon (1,360 ft)**  
Northwest of Pateros. Hwy 153 northwest for 6.5 mi to USFS Road 4010. Turn left (west) to the end of plowed road.  
15 spaces  
Trails 100 mi (97) (153)
- South Fork Gold Creek (2,140 ft)**  
Northwest of Pateros. Hwy 153 northwest for 17 mi to County Road 1029. Turn left for .75 mi to County Road 1034. Turn left to USFS Road 4330 and turn left again. Go across bridge to the end of plowed road.  
20 spaces  
Trails 100 mi (97) (153)
- 9. Twenty-five Mile Creek (2,000 ft)**  
23 mi from Chelan. Hwy 97 ALT to South Shore Road. 2 mi beyond end of USFS Road 5900/Shady Pass Road  
35 spaces  
Trails 63 mi (97A)

## Entiat Ranger District

(509) 784-1511

- Entiat River (1,720 ft)**  
North of Wenatchee. Hwy 97 ALT north to Entiat River Road/USFS Road 5100 west for 24 mi to end of plowed section  
15 spaces  
Trails 63 mi (97A)
- Mad River (2,500 ft)**  
North of Wenatchee. Hwy 97 ALT north to Entiat River Road/USFS Road 51 west to USFS Road 5800 west (abt 2 mi from Ardenvoir)  
10 spaces  
Trails 186 mi (97A)

## Icon Legend

- Special Groomed Trails Permit required for non-motorized activities. \*not needed with One-day Permit
- Designated tubing area
- Joint snowmobile and non-motorized sports parking lot
- Ungroomed
- Not a Sno-Park. Available parking depends on conditions.

Sno-Park permit required unless noted otherwise. Sno-Parks are groomed unless noted otherwise.

Sanitation facilities are found at all Sno-Parks.

For trail grooming updates visit: [www.parks.wa.gov/winter](http://www.parks.wa.gov/winter)

## Map Legend

- Interstate Route
- State Route
- U.S. Route
- Major City

The closest highway is indicated to make locating Sno-Parks easier.

## Blewett/I-90 Area

*Cle Elum Ranger District*  
(509) 852-1100

- 10. Gold Creek (2,560 ft)**  
1 mi north of the freeway. I-90 Exit 54 to frontage road  
200 spaces  
Trails 23 mi (90)
- Kachess (2,350 ft)**  
4 mi north of I-90 Exit 62 on Kachess Lake Road  
100 spaces  
Trails 23 mi (90)
- Price Creek Westbound (2,500 ft)**  
7 mi east of Snoqualmie Summit. I-90 Exit 62 and west 1 mi  
50 spaces  
Trails 23 mi (90)
- Kachess Dam (2,230 ft)**  
I-90 Exit 70 to USFS Road 4818  
4 spaces  
 (90)

## Lake Easton State Park

(509) 656-2230 (recording)  
656-2586 (voice)  
*Cle Elum Ranger District*  
(509) 852-1100 (grooming info)

- Crystal Springs (2,400 ft)**  
8 mi east of Snoqualmie Summit. I-90 Exit 62 to USFS Road 54 for 1 mi  
250 spaces  
Trails 51 mi (90)
- Lake Easton State Park (2,200 ft)**  
I-90 Exit 70 in day-use area  
30 spaces  
Trails 15 mi (first .6 mi of snowmobile trail runs beside ski trail) (90)
- Easton Reload (2,240 ft)**  
I-90 Exit 71. At stop sign, south over railroad tracks and right onto Cabin Creek Road to end of plowing  
Down to 10 pm  
Trails 14 mi (90)

## Cle Elum Ranger District

(509) 852-1100

- 11. Salmon La Sac (2,360 ft)**  
North of Cle Elum. I-90 Exit 80 to State Route 903 north for 16 mi. Parking off USFS Road 4315  
100 spaces  
Trails 38 mi (90)
- French Cabin (2,250 ft)**  
North of Cle Elum. I-90 Exit 80 to State Route 903 north on way to Salmon La Sac Sno-Park  
25 spaces  
Trails 12 mi (90)
- Starlite Resort (2,350 ft)**  
North of Cle Elum. I-90 Exit 80 to State Route 903 north on way to Salmon La Sac Sno-Park  
75 spaces  
Trails 31 mi (90)
- 

- 12. Blewett Pass (4,100 ft)**  
25 mi south of Leavenworth on Hwy 97  
30 spaces  
Trails 70 mi (97)
- Mineral Springs (2,740 ft)**  
20 mi north of Ellensburg via Hwy 97  
30 spaces  
Trails 70 mi (97)
- 

- Reecer Creek (2,760 ft)**  
13 mi north of Ellensburg via Reecer Creek Road and USFS Road 3500  
75 spaces  
Trails 70 mi (90)
- Teanaway/29 Pines (2,400 ft)**  
6 mi east of Cle Elum. Hwy 97 north to North Fork Tean-away Road north to end of plowing  
25 spaces  
Trails 47 mi (97)
- 

- Elk Heights (2,350 ft)**  
South of Cle Elum. I-90 Exit 93 to Elk Heights Road south for 1 mi  
30 spaces  
Trails 101 mi (90)
- Taneum (2,400 ft)**  
I-90 Exit 93. Elk Heights Road north for .1 mi to Thorp Prairie Road south for 3.5 mi. East on Taneum Road for 6 mi  
25 spaces  
Trails 101 mi (90)
- Manastash (2,950 ft)**  
East of Ellensburg. I-90 Exit 101. Right onto South Thorp Hwy for 2 mi to Cove Road. Right for 3.2 mi to Manastash Road. Right for 9.3 mi to parking area  
25 spaces  
Trails 78 mi (90)

- 13. Woods and Steel (2,200 ft)**  
I-90 Exit 78. Golf Course Road south for .8 mi to Westside Road, left for 1.7 mi to Woods and Steel Road, right for .8 mi  
20 spaces  
Trails 101 mi (90)
- 

- Elk Heights (2,350 ft)**  
South of Cle Elum. I-90 Exit 93 to Elk Heights Road south for 1 mi  
30 spaces  
Trails 101 mi (90)
- Taneum (2,400 ft)**  
I-90 Exit 93. Elk Heights Road north for .1 mi to Thorp Prairie Road south for 3.5 mi. East on Taneum Road for 6 mi  
25 spaces  
Trails 101 mi (90)
- Manastash (2,950 ft)**  
East of Ellensburg. I-90 Exit 101. Right onto South Thorp Hwy for 2 mi to Cove Road. Right for 3.2 mi to Manastash Road. Right for 9.3 mi to parking area  
25 spaces  
Trails 78 mi (90)

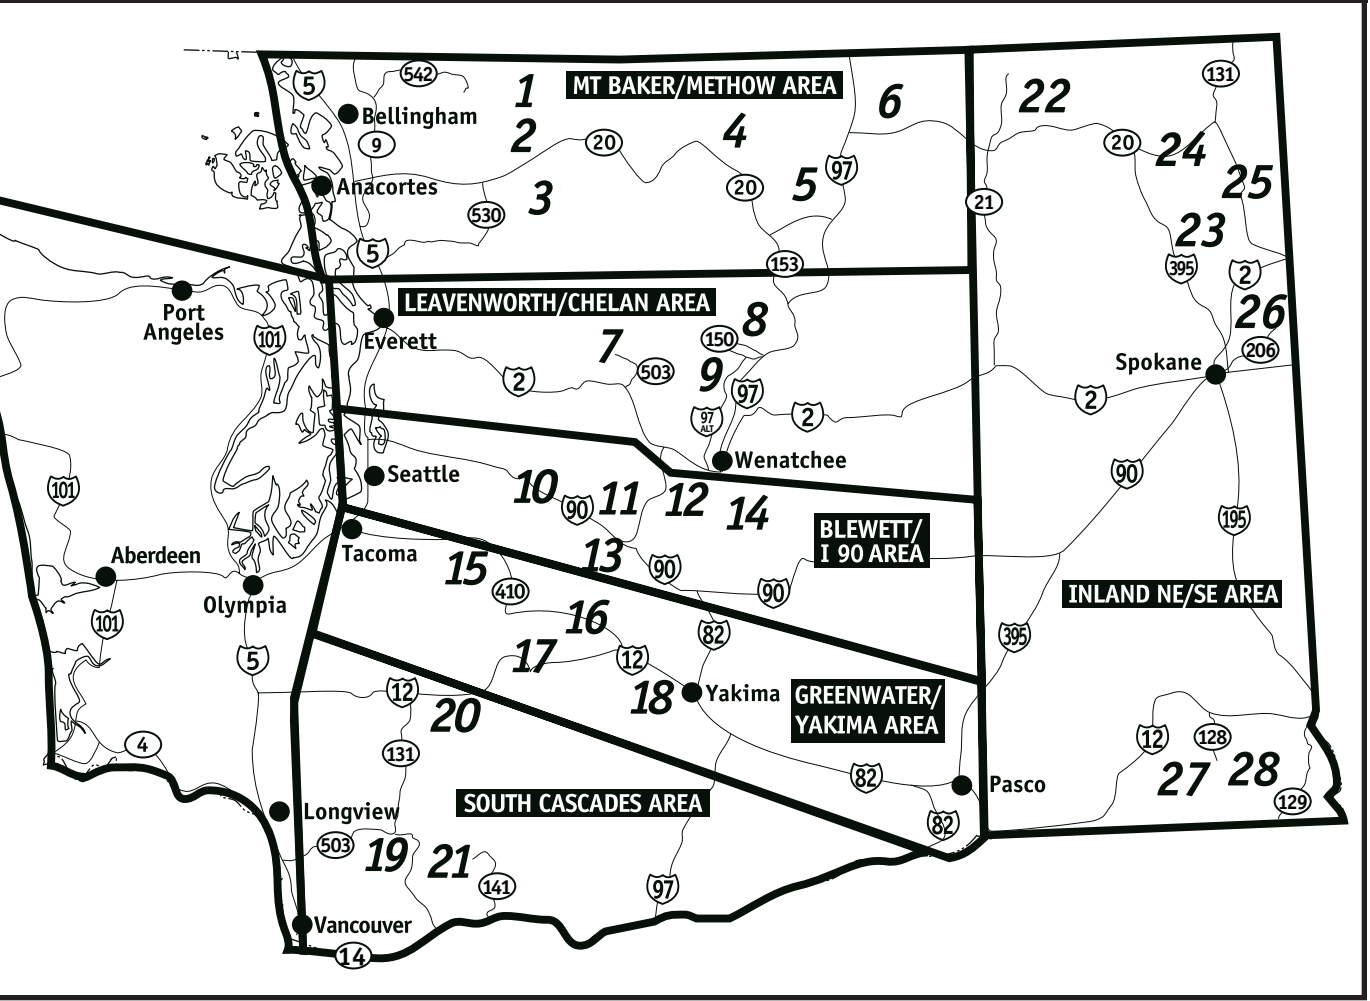

- 14. Clear Lake (2,700 ft)**  
South of Wenatchee on Malaga Hwy. Right on Stemilt Creek Road, right on Stemilt Loop Road for 3 mi to Clear Lake Road  
125 spaces  
Trails 100 mi (2)
- Lily Lake (2,920 ft)**  
South of Wenatchee on Malaga Hwy. Right on Stemilt Creek Road, right on Stemilt Loop Road for 4.5 mi to Lily Lake Road  
40 spaces  
Trails 100 mi (2)

- Greenwater/Yakima Area**  
*Snoqualmie Ranger District*  
Enumclaw office  
(360) 825-6585
- 15. Pyramid Creek (2,720 ft)**  
1 mi east of Greenwater. Hwy 410 to USFS Road 70 east for abt 9.4 mi  
110 spaces  
Trails 68 mi (410)

- Naches Ranger District**  
(509) 653-1400
- 16. Rattlesnake (2,115 ft)**  
16 mi northwest of Naches. Hwy 410 northwest to Nile Road for 1.1 mi to Bethel Ridge/USFS Road 1500 for 1 mi  
10 spaces  
Trails 41 mi (410)
- Nile (2,400 ft)**  
14 mi northwest of Naches. Hwy 410 northwest to Nile Road for 3 mi to Clover Springs/USFS Road 1600 for 3.3 mi  
20 spaces  
Trails 22 mi (410)
- Bald Mountain Road (2,720 ft)**  
Northwest of Naches. Hwy 410 northwest to USFS Road 1701  
Trails 68 mi (410)
- Rock Creek (2,400 & 3,340 ft)**  
19 mi northwest of Naches. Hwy 410 northwest to Rock Creek Road/USFS Road 1702  
Lower lot: go 1.2 mi, 20 spaces  
Upper lot: go 3.8 mi, 10 spaces  
Trails 68 mi (410)
